Sue is a Clairvoyant, Medium, Tarot Reader and Signature Graphologist who is recognized as being one of the most accurate psychics in the country today. She has a wonderful natural ability to predict your future and to help you overcome your fears and anxieties and to comfort you in times of need.

Sue is a natural Clairvoyant having been able to see spirits since she was a small child. Sue is able to communicate with the spirit world during her readings, and she can also work as a stand-up medium, having enhanced her abilities at the Colin Fry College in Sweden.

She was given her first pack of tarot cards at the age of nineteen and then realized her true potential as someone who could use her abilities to help others. Over the years, she studied tarot extensively and eventually developed her own unique spread in which she gives a Month by Month prediction for the year ahead and beyond, giving her clients dates and times and predictions that are uncannily accurate.

More recently, Sue has developed the art of "Signature Reading" where she has amazed people with her ability to tell everything about a person's life, and give readings and predictions just from a person's signature.
